Theater Technician Job Description

Position Title: Theater Technician

Reports To: Technical Director

Hours: Varies, shows are generally on evenings and weekends; weekday work may also be required.

Job Summary: Responsible for accommodating performers with sound, lights, and stage assistance.

Job Duties include, but not limited to:

- load ins/outs
- stage direction
- fly system/basic rigging
- spotlight operation
- stage maintenance
- light system control and design principles
- sound system control and design

Supervisory Responsibilities:

- This position has no staff supervisory responsibilities but may occasionally be required to supervise volunteers

Education/Previous Experience

- High School diploma is preferred but not required.
- Experience is preferred but not required. Will train.

Skills Required

- Ability to establish and maintain effective, pleasant, and respectful relationships with staff and performing artists, including local rental groups and national touring groups.
- Must have the physical and mental capabilities to perform the job, which include: interpersonal skills, communication skills, attention to detail and following directions, ability to lift and carry 20-50lbs, comfortable working at heights (focusing lights and operating the fly system).
- Ability to maintain a professional demeanor and appearance.
- Willingness to learn and be flexible with tasks requested.

Wage: Starting at \$16/hour. Higher rates available for those with proven skills and experience.
